N. G. GOODWIN, Road Agent.

Report of the School Board.

In presenting a report of the condition and progress of our Schools for the year, we are aware that the account will not do justice to all in every particular, nor can this reasonably be expected. From the standpoint we occupy, and the knowledge we have of what has been done, we are of the opinion that the Schools have not, for many years, had a better standing than at the present time.

Order and discipline, with one exception, have been vigorously enforced, and good proficiency has been made in the different studies pursued.

Parents have manifested unusual interest in school-work, two hundred and fifteen visits having been made by parents and others during the year. Parents in making frequent calls on the schools, have a good opportunity of knowing how their children are being educated, and their presence impresses upon the pupils minds, the value of knowledge and the importance of diligent study in acquiring the same.

Good teachers are always pleased to have the co-operation of the parents in their school work, nor are they alone, responsible for the education of the minds and morals of the children. Every citizen should feel a common interest in the growth and development of the mental and moral faculties of the young, knowing that the nature and extent of this knowledge, will, to a large degree, shape the character and destiny of the nation.

One half of the year has been devoted to school work: The teachers, for the most part, have given their time and attention to the work, and a good interest was sustained to the close of the schools. While we desire to make our facilities for learning still better, we are of the opinion that seven months in a year is as much as can be profitably used for school purposes, owing to the severity of the climate, and the widely scattered homes of the children.

The present demand seems to be for more competent and energetic teachers, furnished with such aids as may be useful in the school-room.

The old, abandoned school houses, should be sold before they become entirely worthless. A sufficient sum of money should be raised to repair school house No. 1. This house has no grounds for recreation, as it stands nearly in the highway, and on borrowed land. The outside is in fairly good condition, but the inside is very much out of repair, and nearly destitute of paint and plaster. We recommend that the usual amount be raised for the use of schools for the year ensuing.

JAMES R. CAVERLY, } Superintending
HENRY R. GOULD, } Committee.
